

French Cheese Paired with Sake

Join AWIB for a special evening at the newly opened French Cheese Board in SOHO for a cheese and sake pairing.

With the best possible global food array available to us, crossing borders makes sense and the umami in cheese and sake creates a perfect match. Whether it is emmental, brie, mimolette, or raclette, the flavors can be enhanced with the right sake pairing. Our sake ninja has carefully curated a selection that will certainly please your taste buds.

The evening includes a discussion on the variety of French cheese and the diversity of sake, and how pairings enhance the flavors of both.
